## Background in mediation as it relates to primary industries

Having lived almost all my life in regional Queensland (Mackay) and for a short time in Western Queensland (Duchess), I believe I have developed, through personal connections with a number of farming families, enough insight to have a feel for life on the land. However, my area of expertise is Mediation. Within my mediation practice, regardless of creditor/debtor background, I have been successful in helping people succeed with their financial situation by dealing with business debt. Mediations have related to a very broad range of industries, some of which include cattle agistment, tree felling, commercial fishing, fences, tenancy, building and related services, motor vehicle sales and repairs, as well as family dispute resolution.
