How many years have you been operating your business?

Full time employees	Casual / part time employees (full time equivalent)	Total full time equivalent employees
---------------------	--	---

***Calculating Full Time Equivalent**

Full time work is 35 hours per week or more. If your business has casual or part time workers, calculate the number of hours worked by these employees and divide that total by 35 to determine full time equivalents. (For example, seven casual employees working 10 hours per week totalling 70 hours per week, equates to two full time employees).

Describe the history of the primary production business, what the primary production business does, date of commencement and future business plan. Please include any relevant business/employment history of applicants/directors.

Attach separate page if more space is required.

Section 4 - Details of drought impact

Please detail how the current drought has affected your primary production business's income.

Attach separate page if more space is required.

Please detail how the drought has significantly financially affected your primary production business. This may include:

- large reductions in the farm business net cash flow
- large reductions in production and/or yields
- large reductions in operating margins (the percentage margin of farm receipts over farm operating expenses)
- increases in drought-related operating expenses (this may include fodder and agistment expenditure)
- large reductions in livestock numbers through forced sales or losses.

Please include evidence that the financial impacts are directly related to drought conditions. This may include:

- forced destocking through forced sales and movement of stock to agistment or feedlots
- feeding purchased fodder to drought affected stock
- expenditure related to a reduction in water allocations
- purchasing water supplies for drought affected stock and/or crops
- crop failure or reduced yields owing to drought.

These impacts should be evident in the farm business's financial statements, taxation returns and cash flow statements provided with the application.

Section 4 - Details of drought impact (continued)

Operating expenses – necessary to continue normal operations of the farm business

Drought Carry-on Finance Loans are available to assist in funding operating expenses that are necessary to continue the normal operations of the farm business.

Examples of eligible operating expenses may include: paying employee wages, paying creditors, paying rent and rates, buying goods, including fuel, for carrying on the business. The loans may not be used to refinance existing business loans or equipment finance or purchasing new equipment or other assets.
