Business plan summary

Personal details

A business plan is an essential tool for you to use in planning your business direction and communicating your goals and strategies.

Whilst QRIDA will utilise the information in this plan throughout the assessment process, **this is your plan for your business.**

In administering concessional loan programs, QRIDA seeks to support a viable and sustainable primary production sector in Queensland. With this in mind, a viable and sustainable primary production business is one that generates sufficient primary production income to:

- meet fixed and variable operating expenses
- service borrowings at commercial interest rates
- meet statutory obligations (i.e. superannuation and taxation)
- provide an adequate standard of living for business principles and family
- provide funds for reinvestment into the business to increase long-term productivity and sustainability

Note: Should you have an existing business plan format/template, QRIDA is happy to accept this, provided it includes the necessary information.

Assistance:

If you require any assistance in completing your business plan or application, please contact QRIDA Program Management Officers in Brisbane on 1800 623 946. Alternately, Regional Area Managers located in Brisbane, Bundaberg, Townsville, Cloncurry, Innisfail, Kingaroy, Emerald (with an office in Longreach), Mackay, Rockhampton, Roma and Toowoomba are available to assist you.

Submitting your business plan

Your business plan is part of a complete application for a First Start or Sustainability Loan. Please ensure that this document is submitted with all other information required for your current application.

Section 1 - About you			
Please provide information ab	out key personnel involved in	the operation of your primary	production business.

Section 3 - Your future

What is your vision/overall goal for your primary production business (i.e. describe what success looks like for your business)?

Timeline	Detail	How will you measure success?
Example: What will your business look like in 1 year?	Description of goal: Build up enterprise flock to 1,000 ewes and increase lambing by 20%, complete remaining external exclusion fencing.	Have property fully enclosed with exclusion fence. Running 1,000 ewes and maintained
	How it will be funded: Cash deposit and QRIDA loan.	improvement to lambing.
What will your business look like in 1 year?	Description of goal: How it will be funded:	
What will your business look like in 3 years?	Description of goal: How it will be funded:

Section 4 - Risks to your business

Consider possible risks to the success of your plan and outline what strategies you have in place or intend to implement to manage these risks.

When considering the possible risks to the success of your plan, please respond to the following, outlining the risk and the mitigation strategy in place:

- personal risk illness of injury, security of employment
- climate variability risk impact of increasing temperatures and changing rainfall patters
- weather or seasonal risk susceptibility to flooding, cyclones, bush fires
- production risk –yield variations, herd/flock fertility
- financial risk –interest rate increases, inadequate working capital
- market risk e.g. volatile commodity prices, relationship with agents/processors, market access
- industry risk e.g. production failing to meet consumer demand, consumer trends
- biosecurity risk e.g. wild dogs, African Swine Fever (ASF)

Please be thorough in responding to the potential risks that apply to you and your business.

Risk category	Risk	How will you manage this risk?	Degree of Risk (please rank the three (3) most significant risks to your business)
Example: Market risk	Lower than expected commodity price.	On farm sotrage allows us to store half our annual crop which means we are not forced to sell at harvest but can wait gor a market high during the year.	
Example: Climate variability	Lower than expected summer rainfall.	Covert 200 hectare of cultivation to pasture.	1
